📁 Employment History

Software Developer at AMPM , São Paulo

August 2021 — September 2022

- Started working in a existing back office project, creating new features to solve many problems and help directors to understand better how the business with other partners was going and applying maintenance as well.
- ASP.NET CORE Web API based in a Domain Driven Design structure with a SQL Server database with a lot of stored procedures, allowing the new back office system to communicate with the legacy system that did not expose a Web API. Web App MVC to be used to internal employees and directors
- Angular client with its own ASP.NET CORE Web API's allowing customers to request for loans, this one was based in a microservices architecture, communicating with third party partners' Web APIs.

Software Developer Mid-level at Pottencial Seguradora, São Paulo

September 2022

- Working as a back-end engineer in a big Brazilian Insurance company.
- Working in a SRO system, responsible to integrate a lot of insurance movements like emissions, premium movements, claims, and reinsurance contracts with B3 and SUSEP, they both are Brazilian entities.
- Receiving a lot of events sent by another systems in many topics in an Azure Service Bus messaging service
- Processing received requests received as messages through Azure Service Bus' topics in order to enrich that ones and create valid models to integrate with both brazilian entities.

ASP.NET Core
CI/CD
Messaging
Microservices

🎓 Education

System analysis and development, Mackenzie , São Paulo

January 2023

Started to study at Mackenzie, a big and traditional Brazilian school but in the moment I'm in a break

Upper Intermediate 2 (B2), Cultura Inglesa

August 2024

Traditional English school, I went back to improve my English this year.
